## NOTICE.

In presenting this issue of our Illustrated Catalogue of export goods, we take pleasure in expressing our thanks to our customers for the liberal patronage, which has heretofore been given to us, and beg to say that, with our improved machinery and methods of manufacture and by using only the finest quality of swedish caststeel and charcoal iron, we feel confident, that we are able to place in all the markets of the world the highest grade of Axes and Edge Tools, that can be made.

Our endeavours to produce only a thoroughly first class tool have received such encouragement on the part of the public, that the demand for our goods is constantly increasing, and that our Axes and Hatchets have been awarded the highest prizemedals, wherever they have been exhibited, in Sweden or in foreign countries.

In ordering please always refer to the number of the desired article.

# TRADE MARK

AND

# PACKING.

\*

To distinguish their goods in the different export markets, Hults Bruk is using the registered labels, shewn at the following page and besides, the name Hults Bruk and the mark  are stamped into every tool. In order to insure themselves against fraud, purchasers are particularly requested to examine the goods and see that the above mentioned labels and stamps are on the tools.

The Axes and Hatchets are wrapped in paper and packed in small wooden or paper boxes, each box generally containing one dozen.

The attention of buyers is called to the following points:

- 1:o) That the steel is inserted into the polls in order to procure greatest possible strength and durability.
- 2:o) That only the highest quality of Swedish cast steel is used for all Axes and Hatchets.
- 3:o) That the temper and cutting qualities of all Axes and Hatchets are carefully tested before they leave the works.
- 4:o) That the goods can be had japanned black, blue, red or gilt, but, if special orders are not given, all goods will be delivered finished in Black Japan, excepting the Handled Hatchets, specified in this list, which are Bronze finished.
- 5:o) That any description of axe can be supplied to suit Buyers' requirements.
