

# AGDOR

AGDOR axes are made at Hults Bruk, Northern Europe's oldest and largest manufacturer of axes.

The AGDOR range consists of a large number of models and weights designed to meet the demands of customers all over the world.

AGDOR axes are forged from high-quality Swedish axe steel by skilled axe smiths. Using modern machines and production methods, we produce axes of superior and even quality. This guarantees that each individual axe will perform in any climate, from Arctic cold to tropical heat.
